CBAM Certificate Price Rules for Suppliers and EU Buyers

From January 1, 2026, the EU buyers are mandated to calculate their CBAM prices and purchase [CBAM certificates](#). And importers now need to hold CBAM certificates equal to 50% of year-to-date embedded emissions at each quarter-end (earlier 80%). However, carbon price can be readjusted as importers can deduct any carbon price already paid in the country of origin — but only with certified evidence. This means, if the supplier for a CBAM listed product has paid applicable Carbon tax in the country of origin, then the price for that can be readjusted under the CBAM provisions and the importer does not need to pay double tax under the CBAM certificate price rules.
