JUNE 2026

ISSUE #06

A MONTHLY BRIEF ON CBAM AND HOW IT IS SHAPING SUPPLIERS, IMPORTERS AND THEIR BUSINESSES. STAY UPDATED WITH ALL CHANGES AND RULES UNDER CBAM.

Dear Readers,

Welcome to the June edition of The CBAM Brief, a monthly newsletter by India's best CBAM reporting partner CleanCarbon.ai. I am Nilesh Bhattad, CBAM expert and CEO, Clean Carbon.ai. In this newsletter, we will look at all the major updates in the CBAM world in 2026.

## Latest news

### CleanCarbon.ai's Participates in a Indian Steel Industry Roundtable

cleancarbon.ai's Shubham Thakur, CBAM expert, was invited by Policy Circle media house to join a distinguished panel of policymakers, industry leaders, and sustainability experts at a roundtable on "India's Steel Industry: Growth, Green Transition, and Global Competition." The discussion explored some of the most pressing challenges and opportunities facing the steel sector today—from decarbonisation and green steel pathways to global competitiveness in an era of carbon border regulations such as CBAM. ### What Happens If You Miss a CBAM Report Deadline?

If suppliers and importers don't adhere to the CBAM report deadline, they could suffer financial losses and lose business. Here is all you need to know about what happens when suppliers and EU buyers miss the CBAM report deadline. [Read more...](#)

### How Is Steel Made? Emission Implications of Steel

Steel is the backbone of modern civilisation – from skyscrapers and bridges to vehicles, appliances, and renewable energy infrastructure. Global crude steel production reached approximately 1.885 billion tonnes in 2024, powering economic growth while posing one of the largest industrial climate challenges. Understanding how is steel made reveals why the sector accounts for roughly 7–8% of global anthropogenic greenhouse gas (GHG) emissions, and why its emission implications of steel are central to discussions around decarbonisation and the future of “green steel.” [Read more...](#)

# Case Study

## Avon Steel Industries' Wins CBAM Challenge With CleanCarbon.ai

Avon Steel Industries Pvt. Ltd., part of the renowned Avon Group of Industries (established in 1952), is one of India's leading steel manufacturers. Headquartered in Ludhiana, Punjab, the company has a strong legacy of over seven decades and an annual turnover of approximately ₹1000 crores. Its export to the EU was going on very well until it started facing challenges due to CBAM reporting. When a 203-ton shipment of steel pipes and sections was held at EU customs due to missing CBAM documentation, Avon Steel partnered with CleanCarbon.ai to resolve the crisis and build a robust, long-term CBAM compliance system.
